ABOUT ME

An enthusiastic AIML student with hands-on experience in machine learning, full-stack web, and Flutter app development. Skilled in building data-driven solutions with strong knowledge of algorithms, data analysis, and model optimization. Passionate about using technology to solve real-world problems and create impactful innovations.

EDUCATION

Srinivas Institute of Technology, Valachil | 2022-2026 (Ongoing)

Bachelor of Engineering (AIML)

CGPA: 8.62

Excel Pre University College, Guruvayanakere | 2020-2022

Pre University Education (PCMB)

89.66%

Manshar English Medium School, Gerukatte | 2019-2020

Secondary Education

80.64%

SKILLS

- **Programming Languages:** Python, Java, HTML, CSS, JavaScript, Dart
- **Frameworks & Tools:** Flutter, React, Node.js, Git, MongoDB, Firebase, REST APIs
- **Data & Analytics:** Machine Learning, Pandas, NumPy, Scikit-learn, Excel, MS Office, Google sheets, Power BI, Tableau
- **Soft Skills:** Leadership, Effective Communication, Problem-Solving, Critical Thinking, Teamwork
- **Languages:** English, Kannada, Hindi, Malayalam

PROJECTS

Chatify App | [LINK](#)

Aug-Oct 2025

- Built a real-time chat application with Firebase integration for instant messaging and user authentication.
- Technologies: Flutter, Dart, Cloud Firestore

Multi-Image AI Story Teller | [LINK](#)

Oct 2025

- Developed an AI-powered Streamlit web app that generates creative stories from multiple images using Google Gemini, with text narration, audio output, and downloadable PDF features.
- Technologies: Python, Streamlit, Google Gemini API, gTTS, FPDF, Pillow

Heart Disease Prediction System | [LINK](#)

Aug 2025

- Built a Streamlit web app using a Random Forest model to predict heart disease risk in real time.
- Technologies: Python, Scikit-learn, Streamlit, Joblib, Pandas

Weather App | [LINK](#)

May-June 2025

- Developed a Flutter weather app using OpenWeather API with real-time data.
- Technologies: Flutter, Dart, OpenWeather API

Netflix Clone Web App | [LINK](#)

Mar 2025

- Developed a Netflix-style web application with a responsive homepage.
- Technologies: HTML, CSS, JavaScript

Satellite Imagery-Based Land Cover Classification | [LINK](#)

2023 - 2024

- Led a team to build a land classification model using EuroSAT satellite imagery and implemented ResNet50 on Google Colab to classify forests, water bodies, urban areas and many other types.
- Technologies: Python, ResNet50, Deep Learning, Google Colab

INTERNSHIPS

Google AIML Virtual Internship

Apr-Jun 2025

Completed a 10-week virtual internship supported by Google for developers, focused on machine learning fundamentals, model building, and real-world AI applications.

AWS Data Engineering Virtual Internship

Jul-Sep 2025

Completed a 10-week Virtual Internship in Data Engineering, organized by AICTE & EduSkills, with curriculum provided by AWS Academy

CERTIFICATIONS

- Certiport - Artificial Intelligence (Global Certification)
 - IBM - Machine Learning with Python
 - Ethnotech - Data Analytics using Excel, HTML5, AI, SQL
 - Udemy - Full Stack Web Development, Flutter
 - Simplilearn - Python, Machine Learning
 - AICETE - Patent Course
-
